EXPERIENCE

Idaho National Laboratory, Remote — Senior UX Designer

NOVEMBER 2020 - PRESENT

Lead the UX process on cross-functional teams. Provide UX recommendations based on UX research. Create wireframes, mockups, prototypes to communicate task flows and UX concepts with a focus on AI integration. Develop UI components using frontend frameworks, React and Redux. Spearhead the UX Working Group with the mission to advance modern UX processes across teams and projects at INL.

Chegg.com, Remote — UX Design Mentor

OCTOBER 2020 - FEBRUARY 2021

Mentor students enrolled in the Chegg/Thinkful UX/UI Design Immersive courses.

Signify Health, Austin, TX — Senior UX Designer

MARCH 2020 - OCTOBER 2020

Implemented UX Design for a health industry app that coordinates patient care across providers and community-based organizations. Provide research and design solutions by iterating from low to high fidelity using Sketch, Figma, HTML, CSS.

Kony Inc., Austin, TX — UI Developer

OCTOBER 2019 - MARCH 2020

Omni-channel (SPA, Native, Responsive Web) frontend developer using low code IDE and JavaScript for online and mobile banking apps.

CSRA, Austin, TX — UX/UI Lead

MARCH 2017 - OCTOBER 2019

Presented enterprise UX strategy to the Director of VA Financial Services. Defined and implemented enterprise-wide UX processes within Agile. Educated stakeholders and mentored UI developers on the value and principles of UX. Interviewed and observed end users to collect UX research data. Designed and developed a component library featuring standardized, branded, interactive, 508 compliant design system components with HTML/CSS/JS for use across 100+ apps.
